### ROAD IMPROVEMENT PROJECT UNDERWAY

The City of Chino Hills has awarded a \$256,000 contract to All American Asphalt for the annual street improvement project. Work has begun and will continue through the mid October. Preliminary work includes crack sealing, limited pavement repairs (patching), some pavement grinding, and the application of slurry seal. Repainting of pavement striping, stop bars and legends, and reflective pavement markers will complete the work.

Streets affected include neighborhoods on the back side of Townsend Junior High School that are popular drop-off and pick-up locations for students including Gabriel Drive, Tern Street, Duke Avenue, and Hillsdale Ranch Road. The City has provided the school schedule to the contractor and requested that they avoid drop-off and pick-up times. Additional streets include Oakhaven Lane, Altura Avenue, Ridgecrest Lane, Clipper Drive, and Valle Vista Drive from Peyton Drive to Pipeline Avenue.

Temporary "No Parking" signs will be posted two to three days before the work starts and will specify the date and time of the work. The contractor is not authorized to work on the weekend. On the day that the final slurry seal will be applied, residents must move their vehicles to unaffected streets before the work starts and will not have vehicle access to their homes while the slurry cures. Residents will receive a specific notice indicating the date of the slurry application.

Street repairs, although necessary, do create some inconvenience to the residents. Every effort is made to minimize the impact of the work. Questions regarding the project should be directed to the project manager, Anne Dutrey at (909) 364-2760.
