PUBLIC WORKS WEEK DISPLAY AT CITY HALL MAY 13th

The City of Chino Hills Public Works Department invites residents to stop by City Hall, located at 14000 City Center Drive, on Tuesday, May 13th from 2:00 – 7:00 p.m. to learn more about their operations. The Public Works Department has operational and maintenance responsibility for water and sewer, streets, parks, medians, slopes, open space, trees, graffiti removal, facilities, street sweeping, and storm drains. Public Works professionals will be on hand to tell residents more about the work they do. The theme this year is “Building for Today, Planning for Tomorrow.”

Kids will enjoy sitting in the driver’s seat of a tractor or the hydro-excavator. A photo op area will be available where kids can put on a hard hat and safety vest and pose for a picture. A 30’ personnel lift, an aerial boom truck, and the Sanitation’s camera truck, which inspects sewer laterals and main lines, will be on site as well. Several large pieces of equipment will be on display to highlight a few of the many tools which are needed to keep the water flowing, the toilets flushing, the traffic moving, and the

parks ready to enjoy. The City's tools and devices are operated by highly-skilled, professional experts, who consider safety their highest priority. Kids can also learn how a water meter works and get some tips on water conservation. A large "water model" will be on display to demonstrate how rainwater is stored in the underground aquifer. Kids can also learn about the importance of environmental protection and water pollution prevention by watching a watershed demonstration that shows how pollutants wash into the storm drains and out to the ocean.

Free refreshments and giveaways will be available. Please call (909) 364-2800 for additional information.
