GRAND AVENUE STREET PROJECT UNDERWAY

Grand Avenue will get a fresh coat of pavement from Chino Hills Parkway to Peyton Drive as part of the rehabilitation project now underway. All American Asphalt was awarded an \$875,000 contract funded by the Gas Tax. As part of the project, the traffic signals at the intersections of Village Center Drive, Madrugada Drive, and Calle San Marcos have been modified to incorporate video detection of traffic conditions. This will minimize traffic disruption that normally occurs during paving projects due to the traffic signal loops being damaged. Starting March 26th, wheelchair ramps at the intersections will be reconstructed in compliance with ADA (American's with Disabilities Act) regulations. The project schedule calls for the major work and lane closures on Grand Avenue to be underway during Spring break. Starting Monday, April 6th, crews will begin grinding the existing roadway, followed by paving through April 10th. One lane of traffic in each direction will be maintained at all times. Striping, signage, and cleanup work are expected to be completed in the first few weeks of May. For additional information, please call (909) 364-2775.
