Peyton Drive Construction: Bypass Road Detour May Be In Use During the Week of May 18th – 22nd

Utility relocation work may be underway during the week of May 18th - 22nd as part of the Peyton Drive construction project. Relocation of gas lines will require the use of the bypass road detour. That work could occur during the week of May 18th – 22nd. The project schedule for the week is subject to change. Please use the tools in place to monitor the construction activity. When the bypass road is in use, please drive cautiously at a reduced speed in the construction zone.

When the bypass road detour is utilized, construction crews will close the work zone south of the intersection of Peyton Drive and Eucalyptus Avenue at 8:30 a.m. on Mondays, after the morning school traffic. From Tuesday to Friday, the detour would start at 7:30 a.m. Use of the bypass road detour is expected to end by approximately 5:00 p.m. each day, depending upon the status of the work.

Motorists with smartphones are encouraged to take advantage of the OxBlue app to check real time road conditions on the two webcams that are operational 24/7. For those with access to computers, visit www.chinohills.org/PeytonConstruction and click on the webcam photo to view conditions. The website also provides detailed information regarding the OxBlue app. Motorists are reminded to slow down in the construction area for the safety of the workers.

Page Two - Peyton Drive Construction Update

Remember the slogan, "Another Route is a Better Route!" Residents and commuters are asked to avoid the intersection of Peyton Drive and Eucalyptus Avenue when they can. PLEASE plan ahead for the traffic delays and allow extra time.

The bypass road was built specifically to be used when construction crews must work within the street periodically during the project. While the bypass road is in use, northbound traffic on Peyton Drive will stop, turn left onto the bypass road, stop at Eucalyptus Avenue (across from Chino Hills Community Park entrance), turn right, then approach the intersection at Peyton Drive / Eucalyptus Avenue. Southbound Peyton Drive traffic will turn right on Eucalyptus Avenue, stop then turn left into bypass road, stop then turn right on Peyton Drive. Delays are expected when the bypass road is in use. For questions on this project, please call (909) 364-2766.
