MAJOR PAVING WORK ON BUTTERFIELD RANCH ROAD STARTS JULY 29th

The second phase of major road improvements on Butterfield Ranch Road will begin on Monday, June 29th when Hardy and Harper, the City's contractor will begin the process of rehabilitating and paving the roadway between Shady View Drive and the Vila Borba residential project, as part of a \$950,000 project. On July 29th and 30th, work will be underway on the northbound side with one lane of travel maintained at all times. On July 1st and 2nd work will be underway on the southbound side with one lane of travel available at all times. During the week of July 6th – 10th the contractor will repave the roadway with asphalt overlay. One lane of travel will be maintained in each direction at all times. Once the paving is completed, traffic signal loops will be reinstalled, striping will be added, and a buffer bike lane will be striped to provide a three-foot buffer between cyclists and traffic. The project started in April with the installation of accessible sidewalk ramps in compliance with the Americans with Disabilities Act.

The first phase of the project repaved Butterfield Ranch Road from Pine Avenue north to Soquel Canyon Parkway last summer. The final phase will rehabilitate and repave the section in front of the Vila Borba project once the developer completed work in the roadway. The overall project will construct over \$1.8 million dollars in street improvements and is funded by the Gas Tax.
