### PEYTON DRIVE CONSTRUCTION TRAFFIC IMPACTS JULY 6<sup>th</sup> – 10<sup>th</sup>

Construction during the week of July 6 – 10<sup>th</sup> will require a road closure for the construction of the box culvert in the roadway on Peyton Drive south of Eucalyptus Avenue. Motorists will use the bypass road on Monday, July 6<sup>th</sup> from 7:00 a.m. to 3:30 p.m., however on Tuesday, July 7<sup>th</sup> use of the bypass road will begin at 7:00 a.m. and will be in use overnight and continuously until as late as Thursday morning. After that the bypass road will be used for the remainder of that week during the normal construction hours of 7:00 a.m. to 3:30 p.m. As with all construction, conditions in the field can change this schedule. Please plan ahead and expect minor delays. Motorists are required to slow down and drive cautiously through the construction zone and anytime that construction crews are working in or near the roadway.

Pedestrians will not be allowed to walk through the construction zone and will be required to use the walking path alongside the bypass road as well. Signage will alert pedestrians of the Peyton Drive walking path closure. Because safety is of the utmost concern, pedestrians are encouraged to use the bypass road path for the duration of the remaining construction whether or not the bypass road is in use by motorists. Pedestrians are encouraged to use crosswalks whenever possible.
