**SMALL DOGS TO BE REDIRECTED AT VILA BORBA PARK
DURING TURF MAINTENANCE – JUNE 5th – 9th**

Chino Hills, CA – The small dog side of the dog park at Vila Borba Park will be closed for maintenance of the existing turf starting on Monday, June 5th. During the closure, the large dog side will be separated into two sides with portable fencing so that the small dogs may still enjoy visiting the dog park. There are two access gates for the large dog area and temporary signage will direct dogs to the proper side during the maintenance. The schedule anticipates the re-opening of the small dog side of the park at 2:30 p.m. on Friday, June 9th unless unforeseen conditions cause a delay.

The dog park at Vila Borba Park, 17001 Amadora Drive, has been very popular since its grand opening in December 2015. According to City officials, residents requested real grass at the dog park during the design input process. Real grass does require periodic maintenance. The large dog side of the park was renovated during April.
