Replacement of Chino Hills' Signature White Trail Fencing Underway

Chino Hills, CA – The City of Chino Hills is replacing more than 4,100 linear feet of white vinyl trail fencing in two locations on Peyton Drive.

"The new fencing has improved strength and pliability, and it's warrantied to last for 30 years," says Sean O'Connor, Maintenance and Operations Manager for the City of Chino Hills. "It's also consistent with our community's equestrian identity."

The new, white three-rail fencing replaces existing fencing that was installed in 1999. At the southwest and southeast corners of Eucalyptus Avenue and Peyton Drive, 700 linear feet of new fencing is being installed and the area will be landscaped. At the McCoy Equestrian and Recreation Center, 3,460 linear feet of new fencing is being installed. The total cost of the project is \$133,110.56. The project is expected to be completed by the end of August.

The City of Chino Hills is a growing community of more than 80,000 residents who enjoy its quality of life and beautiful rural atmosphere. Its public spaces include 3,000 acres of open space, 43 parks, 47 miles of trails, and five community buildings, including the McCoy Equestrian and Recreation Center.
