CHINO HILLS RANKS HIGH AS SAFE CITY FBI CRIME STATS IN THE UNITED STATES 2016

Chino Hills, CA – The City of Chino Hills continues to rank among the safest cities in California according to FBI crime statistics for 2016. There are 106 cities in California with a population of 50,000 to 100,000. Chino Hills is ranked #4 safest city relative to violent crime and 13th safest city for property crimes. Aggravated assault, forcible rape, murder, and robbery are classified as violent crimes. Arson, burglary, larceny-theft, and motor vehicle theft are classified as property crimes.

“Social media magnifies crime activity in a city, which sometimes leads to the wrong impression,” said Police Chief Captain Darren Goodman. “The partnership we have developed between our Police Department and our residents continues to help us catch criminals and solve crimes.”

According to Captain Goodman, Deputies from the Chino Hills Police Department are responsive to the community and aggressively pursue leads. The Department keeps an eye on crime trends and works to respond proactively.

“Our MET–team (Multiple Enforcement Team) also does outstanding investigative work and we’ve had significant success in identifying, apprehending, and convicting criminal networks that have been responsible for dozens of residential burglaries,” said Captain Goodman. “Our top priority is the safety of our residents, our businesses, and those who visit Chino Hills.”
